

Curriculum vitae

Nico Franze

Date of birth 29th October 1983, Berlin,
Germany

Languages German (native language)
English

Education

- Oct. 2008 Completed my studies with excellent grades (1,4)
- 2008
Berlin Writing diploma thesis
- Title: „Entwickeln einer Software für die automatische Generierung und wiederholbare Durchführung von Funktionstests“ (Developing software for automatically generating repeatable functional tests) In Visual Studio 2008 and .NET 3.5
- 2007
Berlin Microsoft certificates
- Microsoft Certified Professional
 - Microsoft Certified Technology Specialist (.NET)
 - Microsoft Certified Professional Developer (.NET)
- 2004
Berlin University of Applied Sciences Berlin
- Study: technical computer science with main focus on real time systems
 - Degree will be: Diplomingenieur (FH)
- 2000 - 2003
Berlin OSZ IMT (College of Further Education (CFE))
- Technical diploma
 - Vocational education: officially recognized assistant for electronic and data processing technology (staatlich geprüfter Assistent für Elektronik und Datentechnik)

Work Experience

- Since Nov. 2008 ITC Automotive
- .NET development for the berlin police (POLIKS)
- 2008
Berlin CobraYouth Communications GmbH
- GUI testing of video software made for children
- 2007 - 2008
Berlin MediSys-GmbH
- Conceptual design and implementation of „MediaManager“ – program to clearly see arranged images, videos and pdf documents
 - Implementation of custom controls and expansion of existing controls
 - Consulting and support for design software components in .NET

2005
Hanau

WECO (WECOGROUP)

- Rough planning system (Gantt Diagram) developed
- Detailed planning system (Gantt Diagram) with miscellaneous plausibility checks developed

Work Experience

2004 - 2007
Würzburg

Ebbinghaus Team GmbH

- Reworked database connection interface: allowing connection to multiple databases and improving performance
- Implemented error messaging system: the user gets clearly structured and meaningful error messages Customizing
- Implemented Customization: allowing the user to extend the functionality of existing forms and build their own forms or print reports
- Implemented dynamic menu and right system: allowing the user to be granted a specific role with rights and restrictions
- Implemented printing system: allowing the user to print any kind of bills or reports, which are important for the business

Programming languages / Software

ASM (Assembler), C, C++, C#, HTML, PHP, Java, SQL, VB.Net

Microsoft Access, Excel, PowerPoint, Outlook, Word, Visual Studio
Windows Server, XP

Versions control systems (IBM Rational ClearQuest and ClearCase, SVN, CVS, SourceSafe)

Some words about myself

At the age of 12, I started programming with the languages batch and QBasic. Since that time I constantly improve my programming knowledge and I always keep up to date with the latests trends and new developments.

Since 2004 I have been working as a self-employed software developer and consultant alongside my studies to give me a great insight into many software projects and different companies.

In my spare time I enjoy jogging, I am a hobby cook and I also like to develop, build and solder electronic circuits.

I would like to work in a leading position for development of innovative and trend setting software.
